15.

This application's claims 59 to 62 and 64 through 69 were finally rejected in paper no. 6 dated June 16, 1982. The rejection was upheld in the Board of Patent Appeals and Interferences Decision - paper- no. 36 mailed June 25, 1987. In addition those claims were rejected under 35 USC 102 and 103 in the Board's new rejections under 37 CFR 1.196(b) on pages 10 through 12 of the decision. The period of one month set for response to said new grounds of rejection, as indicated on page 13 in the decision, having passed, those claims' subject matter is considered disclaimed. Cancellation is required.

Claims 63 to 70, previously indicated as allowable by the examiner, are now rejected over the following U.S. patents which issued during the interim period after the final rejection was made but before the appeal was heard.

Claims 63 to 70 are rejected under 35 USC (e) and (g) as fully met by Bresser et al patent no. 4,576,984.

Applicants earliest disclosure, their French application filed August 29, 1978, upon which priority under 35 USC 119 has been requested finds specific antecedent support for the mercapto acid esters but only broad generic support for the organotin compounds. In any event, 35 USC 101 and 102 prohibit issuance of more than one patent for the same invention.

Art Unit 153

Applicant is advised that in view of their ostensible earlier conception, that all claims that can be copied for purposes of interference should be made in order to avoid a holding of disclaimer on the grounds stated by the Board of Appeals and Interferences on page 10 for the same decision.

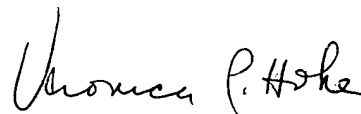

In patent 4,576,984 one or more organotin compounds (claim 2) e.g. monobutyltin dodecyl mercaptide sulfide, $C_4H_9-Sn(S-C_{12}H_{25})_3$ or organotin mercapto ester sulfide of applicants generic formula corresponding to Bressers formula XIV compounds (see also Table VII in cols. 17 and 18) is combined with a mercapto acid ester such as 2-mercapto ethyl stearate (col. 39 example 2). The organotin compounds are within formulas III and XIV for example and the mercapto acid ester within formula VI.
